PERSONAL PROFILE

Hello, Ajnur Radovic here. I am a Self-taught Front-End Developer. From the moment have I have produced "Hello World" in the console of my first application, I was hooked in the world of Web development. But Web development has never been "just a hobby" for me, it's offered an engaging challenge to continually learn and improve my skills in creating quality web applications

WORK EXPERIENCE

HR

FROM 09/2019 to 08/2020

I was an HR at the Supermarket. I can call it like that. My job was to know how many groceries were sold, what groceries are close to the expiry date, so I can put them on sale, etc. I did interview people as well. The work was enjoyable, but unfortunately got laid off due to Covid. That when I got myself to learn code. "Never-ending journey"

Freelancer at Upwork

Recently

So recently I got myself a couple of clients at Upwork Main thing that I am doing is Webflow/CMS

EDUCATIONAL HISTORY

GED Electrical Engineering FROM 2011 TO 2015
